Re: *Coyness L. Ennix, Jr., M.D. v. Alta Bates Summit Medical Center –
Case No. C 07-2486 WHA*

Dear Magistrate Judge Spero:

This joint letter is respectfully submitted concerning disputed issues following the conclusion of an in-person discovery conference of lead trial counsel. Counsel made a good faith effort to adhere to the Court's 3 page limit in connection with this submission, however, the complexity of the issues presented required an additional one half of one page.

Defendant's Request for Non-Testifying Expert Discovery.

Defendant seeks non-testifying "expert" discovery concerning individuals who provided Plaintiff with opinions (as well as the underlying opinions) concerning the quality of Plaintiff's care at the Summit Medical Center between January 1, 2004 and July 31, 2006 ("the Relevant Time Period") but whose opinions were not provided by Plaintiff to the Summit Medical Staff during Plaintiff's peer review. See **Exh. A** at p. 3; see also **Exh. B** at pp. 2-3. Plaintiff admits such opinions exist but objects to the discovery on work product grounds. See **Exh. A** at p. 3; **Exh. B** at p. 3.

Defendant's Position. The requested discovery is relevant to Plaintiff's allegation that "all evaluations of [his] performance provided by qualified, disinterested experts found no deviation from the standard of care and no justification for the restrictions placed on [Plaintiff's] privileges." Compl., ¶ 3 at p. 2:18-20. Although Plaintiff admits he received opinions which he did not disclose to the Summit Medical Staff during his peer review (see **Exh. A** at pp. 2-3), he now refuses to disclose those opinions. Such refusal suggests that "all" evaluators did not agree with Plaintiff's position at the time the Complaint was filed. If true, such discovery will undermine Plaintiff's credibility at trial by showing that Plaintiff knew that disinterested "experts" who harbored no discriminatory animus towards Plaintiff either observed problems with Plaintiff's patient care or supported the privilege restrictions the Summit Medical Staff imposed. Defendant also contends that Plaintiff's work product objection is misplaced. To begin, it is Plaintiff's knowledge of the falsity of the paragraph 3 allegation which is at issue and not the "work product" of his counsel. See also F.R.C.P. 26(b)(4), Adv. Comm. Notes (1970) (rejecting "as ill-considered the decisions which have sought to bring [such] expert information within the work product doctrine"). Even if work product was a proper objection, Plaintiff waived it by failing to produce a privilege log. See Judge Alsup's Supplemental CMC Order, ¶ 17. Plaintiff also impliedly waived fact work product protection by placing the requested discovery at issue in paragraph 3 because evidence of

Plaintiff's veracity is a vital component of ABSMC's defense. See *Tennison v. City & County of San Francisco*, 226 F.R.D. 615, 623 (N.D. Cal. 2005) (granting similar discovery on such grounds). Finally, the requested discovery is the sole means through which Defendant may establish Plaintiff's state of mind at the time he alleged that "all" evaluators agreed with him. Thus, there are exceptional circumstances present supporting Defendant's requests. See Rule 26(b)(4)(B).

Plaintiff's Position. Plaintiff maintains that the identities and opinions of non-testifying experts that he retained or employed during the peer review process are not discoverable. F.R.C.P. Rule 26(b)(4) addresses the issue and states that Defendant is entitled to this discovery only "upon a showing of exceptional circumstances under which it is impracticable for the party seeking discovery to obtain facts or opinions on the same subject by other means." Here, Defendant has access to all of the information any non-testifying expert could have reviewed regarding Plaintiff's performance on the patient cases they reviewed. Defendant has not identified any exceptional circumstances to circumvent rule 26(b)(4) and the desired discovery should not be allowed.

Plaintiff Requests Documents Regarding Peer Review at the Alta Bates Campus

Plaintiff's Position. Plaintiff contends that peer review discovery from the Alta Bates Campus is relevant to Plaintiff's Section 1981 Claim. Defendant is one entity with two hospital campuses, which share not only a corporate identity but also a common culture. Many members of the Medical Staffs of each campus belong to the Medical Staff of the other campus. Plaintiff has surgical privileges at both campuses and his privileges at the Summit campus were summarily suspended in part due to his alleged poor performance at the Alta Bates Campus. Members of the Summit Medical Staff identified by Defendant as involved in the peer review of Plaintiff also served or serve on the Medical Staff of the Alta Bates Campus, some with peer review responsibilities. Plaintiff's contention is that he was treated differently based on his race by Defendant's peer reviewers. He must prove that similarly situated non-white physician were treated more favorably. *Aragon v. Republic Silver State Disposal* 292 F.3d 654 (9th Cir. 2002). He is entitled to know how Defendant's peer review process has treated white and non-white physicians. In the meet and confer session, Plaintiff agreed to consider withdrawing or limiting his discovery requests regarding the Alta Bates Campus upon Defendant providing a record of which physicians involved in his peer review were actually on the Alta Bates Medical Staff and involved in peer review at Alta Bates. Defendant provided information regarding which Summit physicians were on the Alta Bates Medical Staff, but would only provide information related to peer review activities of these physicians for the 18-month period from January 1, 2004 through July 31, 2006. Given the clear intermingling of the two campus's Medical Staffs, and the fact that Defendant based its summary suspension of Dr. Ennix on events at Alta Bates, this limited window of information regarding peer review activities at Alta Bates is insufficient for Plaintiff to conclude there is no basis to pursue the requested discovery regarding how other physicians were treated at Defendant's Alta Bates Campus.

Defendant's Position. First, Plaintiff is not entitled to information concerning the Alta Bates Medical Staff, including the peer review information of its members. The peer review placed at issue by the Complaint was conducted by the Summit Medical Staff. The Summit and Alta Bates Medical Staffs are distinct, with separate Bylaws, Rules and Regulations, officers, peer review committees, and peer review processes. Moreover, the discovery requests seek information over a twenty year time period and the two hospitals were separate legal entities for most of that time. And it is the

Page 3

Medical Staff members of the respective Campuses which comprise the peer review decision-makers for each hospital. Of approximately 27 decision-makers involved in Plaintiff's peer review at the Summit Campus, none were involved in peer review at the Alta Bates Campus at the Medical Executive Committee level and none were involved in the peer review of cardiac surgeons. In fact, only two of the decision-makers had any role in Alta Bates Medical Staff peer review and that role concerned the unrelated specialties of OB/GYN and Pathology. Second, to prevail on his Section 1981 Claim, Plaintiff must establish that a similarly situated individual is "directly comparable" to him "in all material respects" and that such individual was treated more favorably than Plaintiff. See Mbadiwe v. Union Mem'l Reg'l Med. Ctr., Inc., 2007 U.S. Dist. LEXIS 30319, *5-*6 (W.D.N.C. Apr. 24, 2007) (applying this standard to a minority physician's Section 1981 claim that his privileges were restricted due to his race and requiring the Plaintiff to establish that the alleged acts of his comparators were of "'comparable seriousness' to his own infractions."); see also Vesom v. Atchison Hosp. Ass'n, 2006 U.S. Dist. LEXIS 68576, *70-*71 (D. Kan. 2006) (similar and granting summary judgment to hospital in part because Plaintiff's "similarly situated" evidence did not "deal with the same time period, and therefore the same MEC, as the period during which plaintiff applied for and was denied renewal of staff privileges."). Taking into account the unique problems associated with Plaintiff's provision of patient care at the Summit Campus and the varied composition and number of decision-makers involved in Plaintiff's 19-month peer review, it will not be possible for Plaintiff to establish the existence of a similarly situated individual at the Alta Bates Campus even if some of the decision-makers held privileges there. There is simply no factual or legal basis for Plaintiff to argue that peer review proceedings conducted at the Alta Bates Campus are relevant to the peer review proceedings at issue in this case. Finally, because of the issues presented by the discovery (including substantial public policy concerns), Defendant requests that this issue be resolved only following a fully noticed motion.

Plaintiff's Request That Defendant Produce Race-Based Data Concerning the Medical Staffs

Plaintiff's Position. Plaintiff propounded an interrogatory (Special Interrogatory #2) that requested "how many members of the medical staffs of the Alta Bates or Summit campuses of ABSMC during the period of 2004 to 2006 were Caucasian?" The type of statistical information sought is relevant to prove racial discrimination. See McDonnell Douglas Corp. v. Green 411 U.S. 792, 805 (1973). Defendant does not dispute the relevance of the information sought, but rather makes the claim that they do not have the race information requested. A corporate entity answering interrogatories must furnish "such information as is available to the party." F.R.C.P. §33(a). Defendant has made no showing that the information requested is not available to it, and it should be by a mere review of its roster. Instead, Defendant has only stated that they do not record the race of physicians. The court should order that Defendant make reasonable efforts to answer the interrogatory based on information available to it.

Defendant's Position. Defendant disputes the relevance of the requested discovery with respect to the Alta Bates Medical Staff for the reasons described in the preceding section. With respect to the Summit Medical Staff, Defendant provided a verified response stating that the Summit Medical Staff does not record the race of its physicians. Defendant should not be ordered to produce information it does not maintain. See F.R.C.P. 33(a) (requiring the party answering interrogatories to "furnish such information as is available to the party."). Moreover, Defendant is not attempting unreasonably to withhold discoverable information. Defendant has produced a chart describing generally the peer review investigations at the Summit Campus and the corrective actions taken by its Medical Executive

Page 4

Committee from 1992 to the present. That chart includes Defendant's "best guess" concerning the race of the reviewed physicians. Estimates were necessary because, after a reasonable inquiry, Defendant could not state with certainty the race of its individual members. Further, Defendant disagrees that race can be determined from a "mere review" of the Summit Medical Staff roster. Physician names are not race specific and, in any event, there have been approximately 800 Summit Medical Staff members holding clinical privileges each year during the Relevant Time Period. Reviewing that many names and providing a best estimate of race will result in uncertain responses which Defendant will be unable to verify. Finally, Defendant intends to produce the Summit Medical Staff rosters for the Relevant Time Period in response to Plaintiff's Request for Production No. 132 (due on December 21, 2007). See Exh. C at p. 4. Plaintiff, who currently holds privileges at the Summit Campus and who held such privileges during the Relevant Time Period may review those rosters and provide his own estimate concerning the race information it contains.

INSTRUCTIONS

A. To the extent that YOU consider any of the requests objectionable for reasons other than a claim of privilege, produce as much of the material requested as to which such objection is not made, and, separately with respect to each remaining part, state the nature of YOUR objection, set forth each and every ground for YOUR objection, and describe the factual basis, if any, upon which YOU rely in making such objections.

B. Each request contained herein extends to all DOCUMENTS in YOUR possession, custody, or control. A DOCUMENT is deemed to be in YOUR possession, custody, or control if it is in YOUR physical custody, or if it is in the physical custody of any PERSON and YOU: (1) own such DOCUMENT in whole or in part; (2) have a right by contract, statute or otherwise to use, inspect, examine or copy such DOCUMENT on any terms; (3) have an understanding, express or implied, that YOU may use, inspect, examine or copy such DOCUMENT on any terms; or (4) have, as a practical matter, been able to use, inspect, examine or copy such DOCUMENT when YOU have sought to do so. Specifically, and without limiting the foregoing, this request encompasses all DOCUMENTS in the possession, custody or control of YOU, YOUR attorneys, YOUR employees and YOUR agents, and/or any other person substantially owned or controlled by YOU.

C. All DOCUMENTS should be produced in conformance with Federal Rule of Civil Procedure 34(b) and, pursuant to such rules, YOU are required to produce DOCUMENTS for inspection that are organized and labeled to correspond to each document request.

D. A request to produce all DOCUMENTS RELATING TO one or more matters set forth is a request to produce all DOCUMENTS RELATING TO any one or more of the matters listed.

E. A request to produce DOCUMENTS sufficient to show one or more matters set forth is a request to produce DOCUMENTS to show such matters to the fullest extent possible.
